COMPOSITE DOOR  
COLLECTION

# Why choose a Composite Door?

Composite doors offer the look and feel of a traditional timber door with a huge range of additional benefits. These modern, low-maintenance alternatives to wooden or PVC doors will never rot, swell, crack, warp or need repainting. They also offer dramatically improved energy efficiency so you should notice a significant reduction in your heating bills.

More and more people are turning to composite doors to make their homes safer and more secure. Composite Doors provide a formidable barrier against would-be intruders, while offering a stylish welcome to guests. Our British-built composite doors are available in an extensive range of colours, styles and woodgrain effects with a wide variety of glazing options.

## The Benefits of a Composite Door:

- Low maintenance
- Aesthetically pleasing
- Highly resistant to weathering
- Solid and robust - able to withstand any knocks and bumps
- More secure than a traditional timber door

The world's favourite lock since 1843

We know the safety of your home is a primary concern. That's why, for your peace of mind all Kudos doors are fitted with a lock made by Yale.

## backing glass

With our Diamonds, Fleur and Crystal Harmony glass designs, we recommend a textured backing glass is used to add an extra level of privacy. You can also specify them for use with our Georgian door styles.
